CAREER OBJECTIVE

Career educator with extensive experience in management, writing, and technology applications. Looking to transition into a role that employs his combined passion for education and for English literature.

WORK EXPERIENCE

Broome Street Academy Charter High School

September 2012 – July 2022

Director of Career and Technical Education Department

July 2017 – July 2022

- Managed a team to develop a four-year plan for expanding and refocusing the Computer Science department
 - Determined hiring needs
 - Allocated funding
 - Assigned deliverables and curriculum goals
- Wrote and submitted proposals to state and corporate Computer Science organizations to establish partnerships including Microsoft TEALS (Technology Education and Literacy in Schools) and CS4ALL
- Led professional development presentations for staff on the use of a variety of educational technology tools
- Organized and led a COVID-19 responsive remote-only curriculum for AP Computer Science Principles

Data Systems Admin

July 2017 – July 2022

- Designed, programmed, and maintained three data systems central to the function of the school
 - School-wide system to record and track anecdotal data necessary to understanding student behavior
 - Social-work system to record interactions between students, social work team, and outside groups
 - School-wide security system to request immediate administrative intervention in unfolding incidents
- Maintained the daily function of a Google for Education Suite with over 300 individual users and accounts

Technology Educator

September 2012 – July 2022

- Founded and managed the Technology Department at Broome Street Academy
- Designed and executed curriculum for six distinct courses centered on post-secondary Computer Science skills
- Conducted weekly meetings with math, science, and social studies department chairs to establish school technological needs and determine needed deliverables.
- Implemented a Google for Education Suite with over 300 individual users and accounts
- Featured on the Today Show (2016) to represent Broome Street Academy's use of emerging Google Expeditions classroom technology (July 3, 2016)
